Take Heart Alaska's Quarterly Newsletter

Special Edition—Brief Summary Update

Take Heart Alaska Meeting
Anchorage May 15th, 2009, 10a.m.-5p.m.
Providence Alaska Medical Center
Health Park Building (off Piper Street)
Cancer Center community room, 2nd floor

This brief update is being sent to all Take Heart Alaska Coalition members to inform you about the meeting May 15 in Anchorage.

Date, time, and location of the meeting are indicated above.

Important note: The organization and content of this coalition meeting have been changed somewhat from earlier information you may have received. Instead of the entire Take Heart Alaska coalition meeting together, the May 15 meeting will be a meeting for those members of the THA coalition who are members of the healthy lifestyles or public education committees (or wish to join these committees).

The remaining two THA committees (Professional education, and Heart Disease and stroke treatment and secondary prevention) will meet at another date/location in the near future.

For the May 15 meeting, a detailed agenda will be forthcoming, but in general, the day will include:

- Further development of the draft of the state cardiovascular health plan,
- Development of the action plans/work plans relative to existing committee goals,
- A demonstration of the new Take Heart Alaska website

Lunch will be included at the meeting.
